

MUNI - ONLY LANES & SAFETY UPGRADES

BETTER
MARKET
STREET

Improvements on Market Street extend to all 11 Supervisory Districts.

The first changes to Market Street coming early 2020!

In order to bring improvements to the corridor as soon as possible, early implementation of some elements of the Better Market Street project would occur in early 2020:

- Private vehicle restrictions
- Extension of Muni-only lanes
- Painted safety zones

Painted safety zones are khaki-colored painted areas, flanked by flexible white posts, which wrap around sidewalk corners and improve pedestrian safety.
